Set graphic up at 300 dpi ¼ size. **Do not bleed at edges.** Use all RGB or CMYK do not mix.

**Each Front panel** is 673mm x 2225mm high. Set as one large page. Page size will be 4038mm x 2225mm all divided by 4 = 1009.5mm x 556.25mm the .25mm is important do not round down.

**Podium size is** 770mm high x 1725 including 25mm overlap for Velcro fastening set ¼ size= 192.5 high x 431.25mm wide remember you can only see the front 450mm when wrapped around and this is in the centre.

Please try to avoid panel splits going through text. It is OK between letters but actually through a letter makes it difficult to line up if on unequal ground. Not so bad if large letters.

Please flatten, embed all fonts or convert to paths if supplying Hi Res PDF
