Set graphic up at 300 dpi at ¼ size. **Do not bleed at edges.** Use all RGB or CMYK do not mix.

Each end panel is 900mm x 2000mm high, middle panel is 550mm x 2000mm. Set as one large page. Page size will be 2350 wide x 2000mm high all divided by 4 = 587.5mm x 500mm the . 5mm is important do not round down.

Please try to avoid panel splits going through text. It is OK between letters but actually through a letter makes it difficult to line up if on unequal ground. Not so bad if large letters.

Please embed all fonts or convert to paths if supplying Hi Res PDF
